

Overview

The following set of tables and charts constitutes the Appendix to the ebook titled:

Elite Trader's Secrets

Market Forecasting with the New Refined Elliott Wave Principle

Pattern Recognition System

By Rich Swannell

The charts have been produced by analyzing a large number of graphs with The Elliott Wave Analyzer 3, and collating the results.

Equity graphs have been generated from data gathered from stocks in the S&P500, while the commodity graphs have been produced with data retrieved from the 30 most liquid commodities traded in the U.S.A.
